

How We Keep Your Content Secure

Flawless has developed a comprehensive security framework to safeguard creative content throughout the AI-assisted filmmaking process. Our enterprise-grade controls protect high-value intellectual property from pre-production through final delivery — ensuring studios maintain complete ownership and control of their content.

COMPLIANCE & CERTIFICATION

 <p>CONTENT SECURITY</p>	 <p>BEST PRACTICES</p>	 <p>PRIVACY COMPLIANT</p>

CONTENT RIGHTS & DATA USAGE

Your Content Is Yours. Always.

Flawless recognizes that creative content represents the most valuable asset for our studio partners and maintains strict protocols to protect intellectual property rights.

- ✓ Your content remains 100% yours — we never share, license, or sell it
- ✓ Your content is never used to train our models
- ✓ No third-party models used in final pixel
- ✓ Secure retention and deletion policies
- ✓ We never share, license, or sell your content

STUDIO-GRADE PROTECTION

 <p>Data encryption in transport & storage with industry TLS 1.3 & AES-256</p>	 <p>Hardened AWS cloud infrastructure</p>
 <p>Role-based access controls</p>	 <p>Security auditing with log access</p>
 <p>Okta Auth0 multi-factor authentication (MFA)</p>	 <p>SOC2 and ISO27001 certified infrastructure hosting via AWS shared responsibility model</p>
 <p>CrowdStrike protection across infrastructure and services</p>	 <p>Compatible with secure 'air-gapped' edit suites</p>

GOVERNANCE & OPERATIONAL SECURITY

Comprehensive ISMS & Proactive Risk Management

- **Secure Development Lifecycle** with OWASP best practices
- **Personnel security screening** and need-to-know access controls
- **Code review** and peer approval before production deployment
- **Platform & Service Level Agreements (SLA)**
- **Frequent risk assessments** covering threat landscapes, vulnerabilities, and mitigation strategies
- **Business Continuity** and Disaster Recovery planning
